

# MATH SUPPORT SERVICES

## MATH AND SCIENCE CLASSES \* HOMEWORK CAFÉ

26111 Bouquet Cyn. Rd. Ste. A-1 Santa Clarita, CA 91350 (661) 255-1730

### Make a Change for Better Math and Science Instruction this Year!

Take the stress out of math and science by arranging for tutoring, or by taking a full course with us! Taught by qualified instructors, our direct instruction approach for math and science courses has a 98% success rate. This is the best opportunity to accelerate your child's math education, allow them to participate in rigorous courses, and raise their competitiveness for college admissions.

Math Support Services is WASC accredited as a supplemental school. Courses in Math 7, Math 8, Algebra, Geometry, Algebra 2/Trig, Pre-Calculus, Honors Calculus, Honors Statistics, Biology, Chemistry, and Physics are taught in a friendly, supportive atmosphere. All science courses explore the practical and real-world application of each science in fun, engaging labs. Math electives are also available.

Math Support Services has served thousands of students since 1997. Our Director, Peggy Cannistraci, has a degree in Mathematics and is fully credentialed.

Prices, schedules, and session dates are available at [www.mathsupportservices.com](http://www.mathsupportservices.com). A summary of our offerings is available below and if you would like more information, please call us at (661) 255-1730.

- Homework Café (6:1 ratio) as low as \$30 per session
- Small group tutoring (3:1 ratio) as low as \$40 per session
- Private tutoring (1:1 ratio) as low as \$60 per session
- Full courses for credit start as low as \$1,695 per semester
  - Math and Science (w/labs)
  - WASC Accredited
  - 10% Discount for all Charter School/ Home school students
  - 0% financing for all parent-pay programs.

*Founded in 1993 and fully accredited by WASC in 1997, Math Support Services was the first Supplemental School in the Western US.*

*Our staff consists of over 20 instructors who are specialists in mathematics and science.*

## PSAT Preparation Course

College-bound sophomores and juniors can now prepare for the PSAT exam given each October. The PSAT is utilized to qualify for the National Merit Scholarship awards.

The course consists of a practice exam, strategies for test-taking and a content review of mathematics as time permits.

This course is taught by Math Support staff in a small group setting with a minimum of 3 students and a maximum of 5 students over the course of 3 weeks at 2 hours per session.

**Tuition: \$225**

## Architectural Design and Model Building

This is a project-based, hands-on introductory course that connects art and math to architecture. Students will incorporate core mathematical skills and model-building to help them see the mathematical applications in real life.

This course is taught by Math Support staff in a small group setting with a minimum of 3 students and a maximum of 5 students over the course of 3 weeks at 2 hours per session.

**Tuition: \$225**

## Academic Assessments

You've probably asked yourself the following questions: How is my child doing in math? Are they really learning and retaining the concepts, or do we need to provide more instruction? You can get the answers to your questions by having your child take an assessment test.

**Assessment Fee: \$100 per assessment**

**Charter and Home-School Special: \$50 per assessment**

## Study Skills Workshops

Put your child on the path to success by studying smarter, not harder.

These workshops cover organization, setting priorities, motivation, and attitude, note-taking, memorizing, test-taking, and time management. There is minimal outside homework given.

This course is taught by Math Support staff in a small group setting with a minimum of 3 sessions to a maximum of 5 sessions over the course of 3 weeks at 2 hours per session.

**Tuition: \$225**
